Shire of River Serpent

All Hallows Festival
November 1, 2025
Eden, ID

[Facebook event page](#)

The harvest has been robust and bountiful for the year and now it's time to put up our tools and celebrate the season. Come join us in the Shire of the River Serpente on November 1, 2025 to celebrate All Hallows Day, a day to celebrate all things fall.

There will be a traditional turnip (or pumpkin if you prefer) carving contest. Bring your own or use one provided. We will have prizes for the best in each category and the populace will hold the final vote!!! Categories include: Scary, Traditional, Most On-theme, or Comical. You can mix your mediums (paint/embellishment) but there MUST be some part that is carved.

Board, card, and other games will be available for those who wish to engage your fellow festival goers. In honor of the spooky season all are encouraged to wear your best mask or costume. Make your best mask, dress as your favorite Saint (in honor of All Saints Day), OR your favorite real or SCA historical figure. We will have prizes for the populace choice for mask and costume. A special prize will go to the individual who gets the most correct guesses on their costume.

But what about some combat you say? We're glad you asked! There are plans to have a kingdom wide melee practice at the event and some scenarios that will involve mischief

and mayhem (like maybe a tavern brawl, capture the pumpkin; who knows what they will come up with)! Watch the kingdom FB, website, and our shire pages for more to come.

The Shire will be making standing crust meat pies - called "coffins" - during the luncheon hour. Gluten free and vegetarian options will be available. You are welcome to bring your own provisions or share a dish with others in the populace. The cost of this small luncheon will be \$10.00.

A firepit will be kept lit and all are encouraged to share their songs of mirth or mayhem, a story of mystery and suspense. Have a ghost story you're just dying to tell? Come sit by the fire and entertain us with your tale.

We would like to encourage new folks to come to the event so we are offering a discount. If you bring a first time attendee to the event a \$1.00 discount is offered on site fee. Don't have someone in mind? We will offer the same discount if you bring a non-perishable item to be donated to the local food bank.

Barony of One Thousand Eyes

Baronial Birthday November 8, 2025

Ammon, ID

[visit the Facebook event page](#)

The winds of winter will soon sweep across the kingdom and we will all shelter in our keeps. Their Excellencies Helen and Sigrothr, Baroness and Baron of 1000 Eyes, invite all to join them in reveries, fighting and storytelling in 1000 Eyes. They invite all warriors to test the metal of 1000 Eyes. The scenario for heavy fighting will be a best weapon round robin, unless we have so many fighters that we need to consider changing the format. There will be a rapier tournament to determine who shall defend the barony upon the rapier field. The marshal will be Lord Wolfgang. Further, they welcome all artists to demonstrate their skill in a populace choice display. Lady Hildegard will oversee the arts and science display. Can you keep yourself safe from the influence of the Fair Folk as you search? Sift truth from rumors, and join us in a Midwinter Night's Dream to help us remain on good terms with our Good Neighbors. Along with a mystery to solve and intriguing characters to interact with, can you impress the Fae with your combat prowess in our

tournaments of armored combatants and dueling fencers. And, as befits a fairy encounter, there will be food and dance, stories and music. Random Carp that I have learned

A look at modern practices and their medieval sources

Back in 16th century England, spirits were taxed based on their potency. The easiest, not quite unscientific way of determining this was first to try liquid alone or to mix the liquid with gunpowder and try to light it. If it lit, it was proof that it was alcoholic enough, with a value of 100 (technically, the gunpowder combustion required about 114 proof). If it did not light, it was under-proof, and taxed accordingly. The main problems with this is that flammability of the liquid by itself was very dependent on temperature, and the gunpowder added would stabilize that issue, but the grain and composition could adjust the results as well.

Since then, we have more definitive ways of determining the alcohol content, on a scale of 0-200, though it is physically very difficult to distill beyond 195 proof. And now you know more random carp.
